

TDS-3800

数控定尺台
 TDS-3800 CNC Saw Gauge

[Product Features]

在切割机上，用于精确的型材
 定位，能在直线导轨上往复运
 动，长度可调，适用于
 更多设备的型材使用
 前设备运行，并可随时
 重复定位。
 滑动平稳

TDX-3800

数显定尺台
 TDX-3800 Digital Display Saw Gauge

[Product Features]

- Fixed on the cutting machine accurately. Be used to size large length profile precisely.
- Driven by the CNC servo system the locating board move reciprocating on the rack. More precision Sizing and more supermatic
- Length of the locating board is adjustable. It can fit many kinds of cutting equipments.
- It is easy to control by human surface. A list of cutting can be arranged and effect cutting different length continuously.
- Adopt stainless steel roller. The profile move smoothly.

技术参数 Technical Parameters

输入电源	Input power	380V 50Hz
定尺精度	Precision	± 0.2 mm
外形尺寸	Dimensions	1100 × 500 × 1400 mm
重量	Weight	120kg
